

MARKO VUJANOVIĆ

FULL-STACK DEVELOPER

ABOUT ME

Full-stack developer with experience building modern, scalable web applications using React, Next.js, and Laravel. I enjoy creating performant, intuitive user experiences while designing backend systems that are reliable, maintainable, and built for growth.

Beyond client and product work, I've also taught programming to a wide range of learners, mentoring students in frontend development and helping them grow their technical confidence.
